

Grant/Purchase of Position/ Fee-for-Service Funding Agreement Outcomes

The McHenry County Mental Health Board (MCMHB) has adopted a revised version of the SAMHSA National Outcome Measures (NOMs) Framework to promote the use of consistent measures across its programs. According to the Illinois Department of Human Services' Department of Mental Health, Outpatient Services are provided in partnership with community-based agencies and mental health care centers. These services are designed to help people live independently as they stabilize and move toward recovery. Outpatient services include core mental health services such as counseling, individual and group therapy, medication, and medication monitoring. They also include support in getting and holding a job, finding a place to live, staying in school, improving social relationships, and gaining access to benefit programs. The MCMHB Outcomes are comprised of 10 domains that embody meaningful, real life outcomes for people who are striving to attain and sustain recovery; build resilience; and work, learn, live, and participate fully in their communities. Each Provider shall chose 2 Outcomes (Domain 1 – 7) to report on during the contract period. Domains 8 – 10 are required of all Providers.

Domain 1 – Increased Knowledge/Resiliency

- A. # and % of Active Participants reporting Increased Knowledge/Resiliency during the reporting period
- B. MI/SA/IDD

National Outcome Measures (NOMS) are not available for this domain. Target percentage of improvement is calculated as an average of 3-year (2018-2020) historical Domain 1 data collected for the network.

FY22 Network Target Percentage of Improvement – Education and Resiliency is 76%.

Domain 2 – Abstinence/Reduction in Use

- A. # and % of Active Participants refraining from or reducing use of alcohol/drug use during the reporting period
- B. MI/SA

National Outcome Measures (NOMS) are not available for this domain. Target percentage of abstinence/reduction in use is calculated as an average of 3-year (2018- 2020) historical Domain 2 data collected for the network.

FY22 Network Target Percentage – Abstinence/Reduction in Use is 81%.

Domain 3 - Increased Level of Functioning

- A. # and % of Active Participants reporting an increased level of functioning during the reporting period
- B. MI/SA/IDD
- C. Indicate Tool

National Outcome Measures (2019, pg. 39) SAMHSA Uniform Reporting (Improved Functioning) Children IL Avg 64%, US Avg 69%; Adult IL Avg 89%, US Avg. 72%. An average of 3-year (2018-2020) historical Domain 3 data collected for the network is 61%.

FY22 Network Target Percentage of Improvement – Level of Functioning is 70%

Domain 4 - Employment & Education

- A. # and % of Active Participants Obtained or Retained employment, engaged in employment services or engaged in an education program during the reporting period
- B. MI/SA/IDD

National Outcome Measures (2019, pg. 37) SAMHSA Uniform Reporting (Employment Status - US) 47.4% in labor force. An average of 3-year (2018-2020) historical Domain 4 data collected for the network is 89%.

FY22 Network Target Percentage of Participation – Education and Employment is 89%.

Domain 5 - Housing Stability

- A. # and % of Active Participants reporting increased Housing Stability during the reporting period
- B. MI/SA/IDD

National Outcome Measures (2019, pg. 19) SAMHSA Uniform Reporting (Living Situation) Private Residence IL 76.2%; US 83.7%. An average of 3-year (2018-2020) historical Domain 5 data collected for the network is 76%. FY22 Network Target Percentage of individuals Achieving – Housing Stability is 80%

Domain 6 - Criminal Justice Involvement

- A. # and % of Active Participants reporting decreased criminal justice involvement during the reporting period
- B. MI/SA

National Outcome Measures (2019, pg. 40) SAMHSA Uniform Reporting (Criminal Justice Arrests Over the Last 2 Years 3%). An average of 3-year (2018-2020) historical Domain 6 data collected for the network is 11%.

FY22 Network Target Percentage of individuals – Criminal Justice Involvement is 3%

Domain 7 - Social Connectedness

- A. # and % of Active Participants reporting increased social connectedness during the reporting period
- B. MI/SA/IDD

National Outcome Measures (2019, pg. 1) SAMHSA Uniform Reporting (Improved Social Connectedness) Children IL Avg 81.5%, US Avg 87.6%; Adult IL Avg 89.3%, US Avg 75.8%. An average of 3-year (2018-2020) historical Domain 7 data collected for the network is 66%.

FY22 Network Target Percentage of individuals with increased – Social Connectedness is 75%

Domain 8 - Access/Capacity (REQUIRED)

- A. # of persons active/open to the program by age and gender race on December 1, 2020
- B. # of new persons served by age and gender during the reporting period (do not count if counted in a previous reporting period)
- C. # of persons discharged from the program, by age, during the reporting period (do not count if counted in a previous reporting period)
- D. MI/SA/IDD

Domain 9 - Consumer Satisfaction Survey (REQUIRED)

- A. Unduplicated # of Survey Responses and Average (%) Satisfaction Rate % during the reporting period
- B. MI/SA/IDD

An average of 3-year (2018-2020) historical Domain 9 data collected for the network is 93%.

FY22 Network Target Satisfaction Rate is 93%

Domain 10 - Utilization of Evidence-based Programming (REQUIRED)

- A. Provide EBP Name (if applicable)
- B. Describe fidelity to the model
- C. MI/SA/IDD

Data for reporting on the Outcome Domains will come from providers as required per MCMHB Funding Agreements and identified in Provider Work Plans. Providers will report their efforts on a quarterly basis through the Grant Lifecycle Manager (GLM) System. Through the Outcomes Domain Reporting System, the MCMHB and its partners will:

- Standardize operational definitions and outcome measures
- Develop benchmarking strategies to determine acceptable levels of outcomes
- Produce routine management reports to direct MCMHB's evaluation of services
- Support interventions designed to result in improved outcomes
